Lieutenant General D. M. Twomey
Commanding General
Marine Corps Development and
Education Command
Quantico, Virginia 22134-5050

Dear General Twomey:

We have just completed the fifth running of our Military Analysis Course and we want to express our gratitude to two officers that have worked with us and are soon to be reassigned.

Major Thomas C. Linn of the Amphibious Warfare School has been a major contributor from the beginning. His presentations on the structure and missions of the Marine infantry battalion laid the basis from which a major segment of the ground forces block was developed. His comprehensive knowledge, his articulate and enthusiastic delivery, his interaction with the students, and his willingness to assist our staff in developing instruction were of the highest order.

Captain Ricardo Hackney of the Amphibious Instruction Department arranged the weapons orientation program and our participation in the various field demonstrations which we observed. His enthusiasm and dedication, his active involvement with the students, and his willing cooperation with our staff, enhanced the value of each session for which he was responsible.

The efforts of both Major Linn and Captain Hackney are exemplary. Their performance reflects a high degree of credit on them, the organizations to which they are assigned, and to the Marine Corps. We thank them for a job well done and extend our best wishes for every success in the future.

Sincerely,

Director
of
Training and Education
